Face Painting

Hire an affordable and professional face painter now for your events and kids parties. Let our face painters transform your kids and guests into beautiful fairies, butterflies, safari animals, superheroes and more. Party Parlour face and body art painters use TAG and other professional face paint brands which are all of cosmetic quality, water-based, and skin friendly. These paints are also FDA approved and certified non toxic - formulated such that it is removable with just wet wipes or water, some colours stay longer but you can remove it easily with oil based makeup removers. The brands we use are Tag, Global, Paradise, Wolfe Brothers, and Kryolan. We use only skin / makeup grade poly glitters.

Usually, in an hour, we would be able to face paint about **12-15** people. If it is for a birthday, we will prioritize the birthday girl/boy and we'll give them a more elaborate design too!

Professional Airbrush Tattoo Body Art

Airbrush Body Art are temporary tattoos that resemble real tattoos. Airbrush tattoos are created by applying stencils and spraying the paint on selected areas of the body. The paints we use are FDA approved body paints along with an atomizer. These temporary tattoos are a fun and creativity way to entertain kids and adults alike, great for sports and beach events, and even Halloween or night life events. They can last anywhere from 2 to 5 days and you'll be able to remove it immediately with a number of methods. The quickest and most effective is by direct application of isopropyl alcohol. Standard black ink is used for events but you can always opt for more colourful options or UV colours at an additional fee!

For just black ink **40 - 45** airbrush tattoos can be applied in an hour. If you're looking at 2 colours or more, you can expect about 25 - 30 tattoos done each hour.

Henna Tattoos

Let our professional henna art artist adorn your arm and body with elegant henna designs. Traditionally - henna art is applied on the skin during celebrations and weddings with the varying designs signifying different things to each culture, such as good health, fertility, wisdom and spiritual enlightenment.

Depending on the individual skin type and how well maintained the tattoo is, the tattoo can last for 2 to 5 days. They last longer on dry skin compared to sweaty or oily skin.

For events we usually allocate 3 to 4 minutes for each person. Depending on the design chosen, it can be done on about **15** people and more in 1hr. If you like to cover more people we can simplify the designs such that it takes 2 minutes per person.

Metallic Jewelry Tattoos are the most trendy and flashy form of body art. They are similar to water transfer tattoos, but come in gold or silver colours. Seen on fashion runways, magazine covers and worn by all the Hollywood starlets! Our flashy metallic jewelry tattoos are so easy to apply and can be mixed and matched to create amazing patterns on the skin in the form of body art - perfect for bridal parties, beach parties and any other celebrations.

Metallic temporary tattoos can be worn during night or day at the beach, pool, concerts, festivals, parties or just to glam up your day a bit and can last approximately for 3-7 days, depending on wear and tear. Wear on your arms, legs, hands, feet, back, neck, face, or wherever! Our tattoos are perfectly safe, non-toxic and suitable for both adults and children to wear. They adhere to safety standards for both the cosmetic and toy industries and meet all international regulatory requirements.

UV Body Art

Popular at fashion festivals, night-life events, beach parties and rave concerts - UV body art and face paints are a fashion statement and a fantastic after dark activity. Take your pick from the many types of UV body art we have here.

Note that our body art will be bright and vibrant in normal day-light and glow only under and ultraviolet lighting (Black Lights). UV/ Neon paints should not be confused with Glow in the Dark make up. Glow in the dark make up does not require Black light/ neon lighting in order to glow but UV/ Neon paints do. They will not glow unless there is adequate UV lighting.

A dark space is required for your artist to work in and UV lights are required in your venue for artwork to appear to glow. The darker the venue and the more UV lights – the more fluorescent and brighter the artwork will be!
